

JIRA Open Queue Chrome Extension

Description:

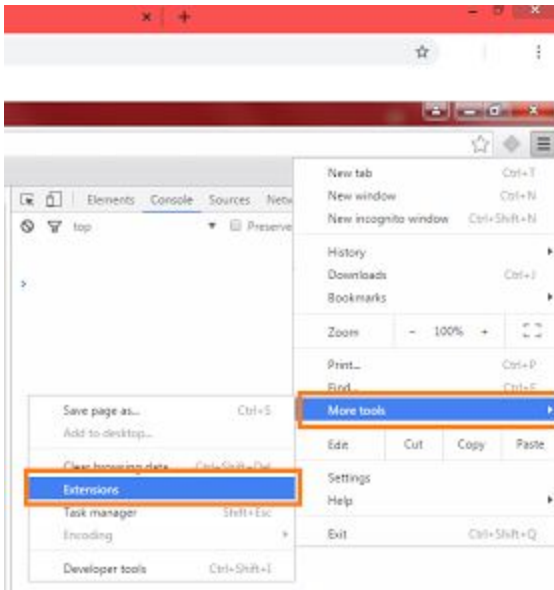

The JIRA Open Queue Chrome Extension (*JIRA Ext.*) is a lightweight tool used to open each assigned JIRA issue on a page on a new tab.

This allows accountability for checking JIRA queues assigned, and an easy way to manage each ticket in order.

Install:

In a chrome window with popups enabled for your specific company's JIRA site:

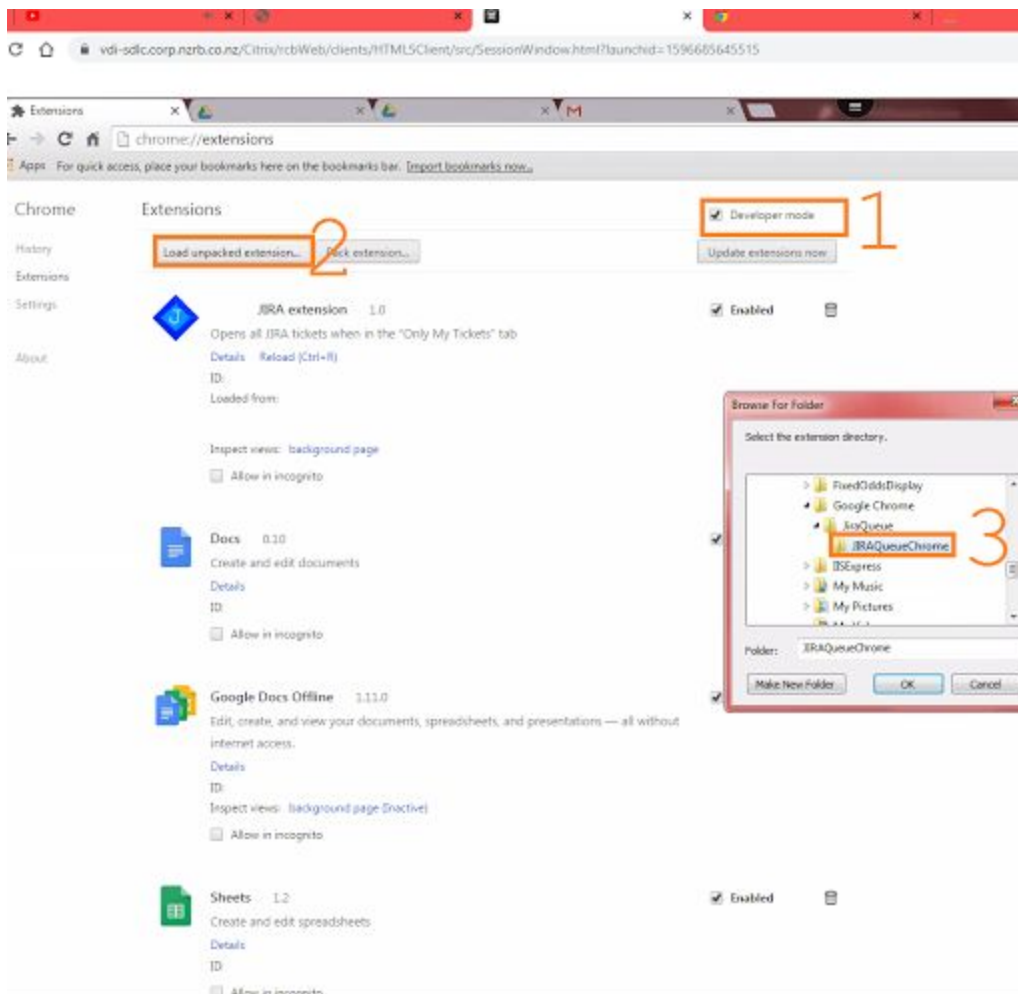

1) Go to the menu in the top right -> Developer -> Extensions

2) Click 'Enable developer mode' .(1)

3) Click 'Load unpacked extension' . (2)

4) Select the downloaded, unzipped JIRA Ext. folder from the location it was downloaded to. (3)

Running Program:

- 1) In your company's JIRA, go to Issues->My Open Issues
(Or the equivalent queue of issues assigned to you that are unopened)
- 2) Click the extension in the top right, click 'open links'
